

Secure, reliable hardware and simple data plans

Constant connectivity is a necessity, not a luxury. Linksys HomeWRK for Education features plug-and-play hardware and easy subscription plans that meet each school district's needs. 4G/LTE WiFi hotspots offer a convenient way to keep every student's laptop, tablet, and other connected devices online.

Features

Reliable connection with nationwide coverage via a mobile hotspot

Enterprise-grade security protection from Fortinet, including web filtering, antivirus, intrusion prevention, and application control

Zero touch provisioning devices

Nationwide coverage with seamless roaming

Affordable hardware and subscription-based data plans

Qualified solution paid by government-funded programs

Benefits

- Create a connected school district that provides quality of learning and teaching experience, regardless of locations
- Reduce digital divide among students by providing a broader network coverage from major broadband providers

- Help schools meet the CIPA compliance by filtering harmful content and creating safe internet access for what matters to students
- Protect schools and prevent breaches from malwares and SIP attacks

- Simple plug-and-play hardware; easy to roll out to students, teachers, and staff
- Broadband services activated in minutes

- Seamlessly roam between key nationwide carriers without having to change SIM card or getting stuck with one carrier network

- Quality hardware delivers reliable 4G wireless access

- Schools can apply for government-funded programs, including ECF, ESSER I & II, Biden's Educational Plan, etc.

Important plan information

Certain limits and restrictions may apply. Compatible equipment required. Upon reaching your high-speed data allowance, speed may be slowed to a max of 128 Kbps for the remainder of your bill cycle. Coverage not available in some areas. During times of congestion, data may be temporarily slower than other traffic.
